

9/8/2016

I was referred to Dr Gautam Kikeri by my husband, Rajesh Renick, who happens to be an existing patient of his.

The last time I had been for a proper dental check up was in 2012. Hence I had neglected my dental work in the process. By the time I had paid Dr G. Kikeri a visit, it was much needed. He explained to me that I would require extensive dental work as my existing dental work had degraded extensively. He was going to start with the most important as well as "urgent attention" matters.

We have come a long way as far as years/time is concerned, but I had my 6 crowns fitted this past Saturday. Perfect!! Perfect!!

All I can say is that I'm really very happy with what he has done so far and will be seeing him for further treatments for other ^{dental} matters.

He is professional and a perfectionist which is a perfect combo for his environment. Thank you once again for making my smile perfect!

Allison Renick
