

I have done 8 dental implants, in stages, by Dr. Santam Kikeri, in the past two years, at Hiranandani Hospital, Powai, 3 implants each on top left and right and 2 at the lower left.

As they were all consecutive implants, it required a lot of meticulous precision work for a good fitting.

I appreciate that Dr. Santam Kikeri was very professional in his work. He explained the procedures at each stage, monitored the progress regularly, waited patiently for the implants to integrate and did not rush to just complete the job. I can now eat and smile with no inhibitions!

I am very satisfied with his work and would recommend highly Dr. Santam Kikeri to anyone considering doing dental implants.

(Mrs) VENZINA NAIRYANI
